

WEY knife gate valve type VNC with double-acting pneumatic drive

with pneumatic power, double-acting, for installation as an intermediate flange slider. Pipe passage tightness due to sealing on the narrow side of the plate. An adjustable transverse seal prevents the medium from escaping to the outside. Solid objects are sheared off by the cutting edge of the plate.

Gehäuse	GG 25 (EN-JL1040)
Dichtung	NBR
Beschichtung	EKB coating (Epoxy powder)
Spindel	stainless steel 1.4304
Zylinder	aluminium
Schieberplatte	stainless steel 1.4301
