

### High pressure nozzle „Turbo-Killer“

optimal rotational speed without braking through the water flow, with ceramic nozzle for long operating life, extreme precise full stream

**temperature range** max. +80°C

**material** brass housing with coat

**gasket** ceramic / ceramic / water lubrication

		ft	PN (bar)	order-no.
nozzle 0,55	16 l/min	1/4"	max. 320	6080 006000
